

# DISABILITY ADVOCACY PROGRAM

Adults 18 and over living with a disability can receive assistance from the Center for Independent Living (CIL). The center works to improve and enhance the independent living options for people with disabilities, including advocacy, skills training, information and referral, peer counseling, home modifications, attendant care and community integration, in addition to deaf and autism services. Call my office to set-up an appointment.

The Center for Independent Living works to improve and enhance the independent living options for people with disabilities.
